CONSOLIDATION TO STICK . . .

MOVE MADE TO PROVIDE NEW BUILDING WITH HIGH SCHOOL FACILITIES.

Those of the ratepayers interested enough in the proposition to attend the annual meeting and give expression to their feelings, recorded themselves strongly in favor of consolidation in preference to reverting to the rural school. It might further be stated that the meeting last Saturday was the most largely attended of any called since consolidation was introduced and thereby might well be considered a fair and general recommendation of the consolidated district at large. The discussion on the main topic lasted some two hours and nearly every niche and corner of the idea was gone into. The sane manner in which the debates were conducted proved very instructive to most all present. The long van hauls proved the most objectional feature, so the meeting voted a recommendation to the board that the number of drivers be increased and that the shortest direct routes be provided for the children. In looking ahead, it was realized that provision must be made to cover the inevitable increase in teachers' salaries, so the meeting decided to start in on the present staff and recommended the board to provide the present staff with a Christmas bonus of twenty-five dollars to each of the girls.

Perhaps the most important feature of the meeting was the action taken in respect to a new school building. It was realized that the present buildings are a disgrace and in no way adequate to serve even the present enrolment. Several children in the district are now illegible for high school and it is the duty of the board to provide this accommodation. The meeting recommended that the board prepare estimates covering a building of the necessary dimensions and submit them to a public meeting of the ratepayers within two months from the date of this meeting. The rough estimates on the probable cost of construction go between thirty and forty thousand dollars.

There was one district in which there was occasion for a poll, and that was in Dufferin. W. A. Teskey and W. A. Newton stood for election, Teskey winning out. Deepwater returned Thos. Chapman, Rolling Prairie returned Paul Ost, while J. R. McKay was acclaimed in Ocean Wave.

TRY IN LOMOND FIRST . . .

TRY IN LOMOND FIRST—the feature article published on the first page of the last issue has brought to us all manner of argument and criticism, though principally from the buying faction. We have also had some comment from the retailers, but a wholehearted consideration of the whole problem on the part of both buyers and sellers has not yet begun.

We do not believe that, taking the stock of any store in Lomond every article and line considered, you can buy enough cheaper from a catalogue house to more than allow for the cost of carrying a retail stock. Now, if it isn't worth something to you, as the general public, to have about a hundred thousand dollars worth of merchandise kept on hand for your personal selection, it's time to reorganize entirely our system of merchandising. The catalogue houses are experts in catching the trade. They are students of psychology on the part of the buyer, and they trick their catalogues so that there are enough outstanding bargain features to hold the buyer's attention and good will, while at the same time the margin is raised on other lines to

cover on the "bargain list". They are wise enough to make up their bargain list out of actual necessities and the bargains are always the first thing to confront the person who opens the catalogue. These are but tricks of the trade, and the small merchant should study the thing and fight the big fellows with their own ammunition. Keep copies of the latest catalogues on your desks and catch the boys before they catch your trade.

Another man hit us with a queer one! Said he, "I have already gone to the bank and arranged a line of credit to carry me till next fall. I have always paid cash at the stores and am still doing so, yet I have neighbors who are buying the same goods on credit at the same store at the same price for which I paid cash. And more yet, I was in the store one day when a man was settling up a store bill of sixty days or better and when the transaction was closed the store man handed the customer a box of chocolates. I never have been given so much as a sack of peanuts, and it looks to me as if money didn't talk so loud as credit after all. Why then should I go out of my way to spend my money at home?" This viewpoint is published to provide an opportunity for a remedy. Store credits are the curse of merchandising and certainly account for a good bit of the spread between the country stores and the catalogue houses. The buyers are not all saints. Just the other day a merchant drew our attention to some catalogue clothing on the back of a man whose store bill stood a year past due. Is this fair? Don't you think if you all paid cash and deposited your money in your local store from ten to fifteen days in advance of taking delivery of your purchases, you could meet the catalogue prices right in Lomond? Be fair at least in your reasoning.

o o o o o

If we thought conditions could not be improved upon, we would buy ready-set boiler plate to take the place of these articles. There are new ideas being introduced into business every day. Here is one of our own origin. Let the merchants organize an association among themselves and establish a local mail-order business under one central head, using the basis of capital invested in their present enterprises in apportioning business to the different houses. It would have to be operated strictly according to rule and under control of a central secretary. There is a large territory outside of the regular business boundaries out of which volume might be secured. This is but an idea. Maybe it will lead into something better.

o o o o o

THE PRESS invites a wholesome discussion on both sides of this important issue.

ARMADA HAS ABLE TEAM IN DEBATE

The Armada U. F. A. degree team won fairly all honors from the Lomond representatives in the debate held in the Armada U.F.A. Hall on Monday night. The subject, Resolved: That the Farmers were Justified in Taking Political Action, was dealt with in the affirmative by Lomond, F. Newton, Eli Blake and R. L. King composing the team. Armada more than held their own in the negative through their team, made up by H. Jewsbury Jr., L. R. Shick and Stewart Galbraith. They exemplified comprehensive preparation. H. Jewsbury occupied the chair and the judges chosen by the audience were W. H. Smith, Dee Harris and Clarke Galbraith. After the debate a generous lunch was provided, followed by a weighing contest, games, dancing, etc. There was present a fair number of people from Lomond. Armada comes

to Lomond soon championing, we are unofficially informed, the new idea of proportional representation. As the Alberta Premier has promised the people to introduce this system in time for the next provincial election, it is high time we all began to familiarize ourselves in this progressive idea.

Lomond Branch, M. J. Stanley, Manager

IT ALL DEPENDS WHERE YOU LIVE

"D" Division, Alberta Provincial Police, Lomond Detachment, Jan. 14th, 1920.

Mr. King,
Editor Lomond Press.
Sir:-

Re E. G. Haley, farmer near Lomond, infraction chap. 80, sec. 4 of Estray Animals Act.

I have the honor to request that you publish the following facts re above case:

The charge against Haley was laid by myself on finding out that an infraction of the Act had been committed. Although the evidence both for the defense and prosecution appeared to show that there were extraneous circumstances purporting to justify same. The animals in question should have been held by the finder, who, on notifying a brand reader who would have read the brands if any and noted all colors, marks and features, and within three days sent a copy of such to the Records of Brands at Medicine Hat. The brand reader would also remit a copy to the Department of Agriculture, who on receipt would publish same for two consecutive weeks in the Alberta Gazette, a copy of which bi-weekly is issued to all police detachments, to all justices of the peace and to every newspaper in the province. The finder on his part shall cause to be inserted a copy of same for three consecutive weeks in a local paper, for which he is reimbursed later on, the sum not exceeding \$1.50. From the date of mailing the notice to owner or brand reader, for care and sustenances he is allowed up to ten dollars. He is further allowed ten cents per mile up to thirty miles.

The justice, the salesman, and the brand reader are all recompensed by the ultimate sale of animals if not redeemed by their lawful owners.

My reason for bringing this case to court was because the whole transaction was illegal and has already led to complications, one owner already having turned up and refused to pay the pound keeper the sum of eight or nine dollars for care of animal, he contending the impounding of his beast was illegal.

The owners of the others, if they turn up, may follow the same procedure.

I think you would do well to point out these facts in your remarks if any, on the subject, and show that if every man has a law unto himself the result

would be chaotic conditions.

His Worship decided to refer to the Minister of the Department of Agriculture in respect to guidance in settling the case, which stands adjourned till 2 p. m. Jan. 23rd.

For your information "D" Division with headquarters at Lethbridge comprises 25,000 square miles, it extends from the B. C. border to the Saskatchewan border and from the international boundary to the line between townships 17 and 18. There are just twenty detachments, all having but one police officer, with the exceptions of Lethbridge, Medicine Hat and Coleman. There are thirty-five police officers inclusive of specials to police this territory and each man or detachment supervises over, on an average, 1250 square miles. By way of comparison, "D" and "K" divisions of the R.N.W.M.P. covered the same area in 1912 with 112 men and 116 horses. Most of our old men are experienced, a few lately who have seen service in the R.N.W.M.P., have very little service experience in the way of criminal work and provincial statutes.

I have the honor to be, sir,
Your obedient servant,
Withrow Maddison,
Constable, Lomond Detachment.

The sequel to the above communication, arose through the fact that Haley whose land lies outside the municipal district, placed three stray cattle in J. R. McKay's pound which has jurisdiction in the municipal district only, Haley alleging to have acted upon the advice of a police constable in so doing. When the owner of one of the animals came to claim the beast he refused to pay McKay's pound charges on the grounds of irregular procedure. His Worship declined to pass decision on the case until finding what effect it would have in dealing with the remaining two cattle now in the pound. It is queer to us that the owner should object more to paying the charges to McKay than to Haley, as he undoubtedly would have to do under strict compliance with the existing statutes. It will serve as a means of education to the public on how to deal with such matters when occasion arises.

The Bolshevik military successes in Russia have caused war clouds to arise on the world's horizon. Seems queer that those Russians have decided to start in fighting now since the rest of the world has decided to quit.

LOMOND, ALBERTA, JAN. 16, 1920

NOTES

The Swift Current catalogue are now being freely circulated. Of all the ridiculous legislation ever written on the statute books this inter-provincial business as it concerns the whiskey trade caps the climax. It's time for a change in our political system if such as this is going to be allowed to stand. If the people in Alberta can buy booze let them buy it in Alberta without this rake-off to the doctors and express companies. Talk about profiteering, the Alberta liquor vendor's department turned in a profit last year of more than four hundred thousand dollars.

o o o

THE PRESS is informed that Rev. A. T. Bell has resigned from the pastorate of the Lomond Church and is entering commercial life in Calgary with John Munro. This will leave Lomond, Kasthir and Travers without a minister, and consequently without church privileges, unless some steps are taken to secure another man. To be without a church, no matter how futile its efforts, does not sound very well for a town of this size. It is harking back to the primitive and we, as individuals, cannot afford to allow such a thing to happen. The Lomond Church since we have known it has been a hot-bed of factionalism. When one bunch works the other balks, and visi versi, and it results in practically nothing being

accomplished. As for a spirit of Christ-likeness being evidenced, it is a simple matter to observe for yourself that it is not to be found. As for the part of the preacher, it takes more than the love of Christ to combat the high cost of living. When Christ was on earth he attended to the physical necessities before appealing to the spiritual. You cannot take a college bred man and put him on a ditch digger's salary—and make him beholding to the whims of the masses for even that—and expect very heavy results. We never knew long faces, long prayers and self righteousness to accomplish anything, much less provide a church stipe. On the other hand, a fat church contribution doesn't pave one's way to glory. It's queer that the church in our town, which is supposed to stand for the exemplification of a god-like spirit, should rather symbolize what we have been taught to look upon as the machinations of the devil. The remedy must come from the people. We cannot do without a church, but we want our church to signify more to us than it has been known to in Lomond. As long as religion is associated with death, it is bound to lose power. What is needed is a rehabilitation of the church idea, a change significant of the present life as lived on earth.

o o o

The serious fire in Calgary will bring home to us Lomond people our helpless condition in times of fire. We under-

stand the town council is arranging to place a box of buckets and axes near the two town wells.

o o o

It beats all how much winter we can crowd in in one season. If hard frosts make good wheat we should all be on easy street next fall. By the way, what are your ideas on irrigation.

L. R. Shick of Armada now sports the title of granddad. On Jan. 5th. a son was born to Mr. and Mrs. H. T. Gebhard at Stonington, Ill.

HOW TO PROCEED TO GET GOVERN- MENT SEED

DEPARTMENT OF AGRICULTURE
SEED AND WEED BRANCH
ALBERTA

Edmonton, 1920.

Dear Sir:—

In reply to your letter of recent date re seed grain, I am instructed to say that distribution will be made to the farmers who lost their crop through drouth last year on the following plan: The Dominion Department of Agriculture will furnish seed to homesteaders who have not secured patent to their lands, and the Provincial Department to those who hold patent to land, taking in each case a lien on the land on which seed is sown. Agents of the Provincial Government will take the applications for both Provincial and Dominion advances, and will be sent to the principal points in the various districts which require assistance, remaining at such points a sufficient time to enable all who wish to meet them. Notice will be given through the local papers of the time when agents will begin work. No application forms will be sent out in advance, but persons who require assistance can write direct to the Seed and Weed Branch, Dept. of Agriculture, Edmonton, giving the correct description of their land, the amount of seed required, and stating whether they hold patents or are homesteaders. If renters or those holding land on agreement of sale, the owner of the land must either sign the lien or give the person who receives the seed a power of attorney to sign in his stead. Such power of attorney form will be sent on request to those needing

same.

Persons needing seed who can buy in their own locality should make arrangements to do so, and orders will be given to the persons they buy from in payment of same, but no orders will be given until all necessary papers are properly completed by the agents of the Department. In municipal districts the work of distribution will be entirely in the hands of the municipal officers and all applications or requests should be sent direct to them. The provincial department will only act in the unorganized districts. Persons farming on land purchased from the Canadian Pacific Railway Company, who do not hold patent to their land, should apply to the said company for their seed requirements.

Yours truly,
J. D. SMITH,
Superintendent.

ENCAMPMENT INSTALLATION

About a dozen Lomond Encampment members attended lodge in Vulcan on Monday night for the installation ceremonies. The new officers stand as follows:

C. P., A. R. Hanna.

Clothes Don't Make the Man . . .

But! THEY HELP put your personality "across". This is just as true in regard to work clothes as in fine clothes. For instance, take the man with a cheap shrinking sweatshop-made pair of work pants on. He will most likely have a poor-cut, cheap-looking work shirt on to go with it. Does this kind of a get-up suggest economy? Or does it suggest a listless, lazy individual who knows he should economize and make the best of things, but why lacks the initiative to get busy and find out which is the real economical method?

A man OF THIS DISTRICT came into our store over a year ago. He rigged himself out with a couple of our military flannel shirts, a pair of our best grade Hewson tweed pants and a Kenyon mackinaw coat. When he got into the outfit he looked like a "real" fellow. His clothes were warm. They fit him good. They had good style. He could have bought a cheaper outfit at the time, but he is still wearing that outfit. And they still look good! They still show quality! He said when he bought them, "The U timate Cost will Determine their Worth."

I'll say he had some logic!

The Frank Brown Company, Ltd.
